

Project Topic Selection

- **Website name:** Wine Storage 101
- **Description:** Within this website, you will be able to organize and store wines in your wine cellar. Not only will you be able to keep track of your cellar, but also see food pairings that go well with certain wines. There will also be a reviews and ratings page that users will be able to learn more about what others thought of certain wines. The home page will be an introduction to the website explaining all of the features available. Finally, there will be a map page where users can see the physical location of their wines within their cellar.
- **Page Names:** Home, Your Cellar, Map, Wine Pairings, Reviews and Ratings
- **Data Description:** We will be keeping track of wine names, the year of the wine, the grape, the region, and its location in your cellar
